

November 7, 2016

Unity recognizes the divine Presence inherent in all people. When we choose to focus upon It and become receptive to It, this Presence expresses through each of us as ultimate wisdom, unlimited compassion, unending strength and impeccable right action; thus, our entire world benefits. We pray all people whose minds, hearts and hands are entwined and embroiled in this place of strife and opposition in North Dakota, and all people who stand and watch the world over, will pause and touch their inner sacred Presence so the higher, more harmonious solution can be made known. There is a divine path forward that is honoring and peaceful for all. May we be open to the sacred power within us to heal, guide, unite, and demonstrate the unlimited possibilities for good in the world when people are willing to be its channel.
